

# PREVENTED A SUICIDE; ENDED HER OWN LIFE

Mrs. Lach Believed to Have Swallowed Poison She Took From Dependent Roomer.

Mrs. Agnes Lach, thirty years old, a bride of two weeks, was found dead in her home, No. 418 East Fifty-fourth Street, early this morning by her husband, Joseph Lach. The cause was reported by the police to the coroner's office as "not known."

Under the recent order of Commissioner Woods requiring members of the household to sign about the city as to have an experienced detective on hand immediately after any sudden death is reported, Detective Ralph Moore was at the East Twenty-second Street Station. He hurried to the Lach apartment.

Moore found the woman's life and tongue disengaged, and on a table near by the bed was a glass with a few drops of a straw-colored liquid in it, resembling cyanide of potassium. Moore finally admitted his wife might have ended her life and said:

"Her name was Agnes Moho. We were married April 6 at City Hall. I lost my job as a bartender after I got married, and because of this we quarrelled. We had a row last night and I went out, and when I got in at 3 o'clock she was dead."

Each said his wife formerly let furnished rooms and one roomer had threatened to end his life and bought

# BLACKHEADS AND PIMPLES ON FACE

Then Large Red Blotches. Would Itch. Ashamed to Leave Home. Used Cuticura Soap and Ointment. After Two Months Face Healed.

At No. 1225 St. New York City. "My face started to break out with blackheads which later developed into pimples and then large red blotches. First my face would itch and to a day or two a small red spot would appear and they would grow until it very much resembled a boil. After that they would come to a head and burst leaving my face sore for a week. There were times when I would be ashamed to leave my home."

"I bought all sorts of ointment and massage cream but all to no avail. I was finally persuaded to try Cuticura Soap and Ointment and immediately I noticed a change. I would apply the Cuticura Ointment at night after thoroughly washing with the Cuticura Soap. In the morning I would use the Cuticura Soap only. After two months my face was entirely cured." # To the Man Who Pays \$35 to \$50 for Custom Clothes

Five years ago you were right. It was necessary then for some men to pay these fancy prices for the fit, style, material and workmanship which their tastes demanded in clothes.

But the designing and tailoring of men's clothes for immediate wear has now reached so high an efficiency standard that the buying of so-called higher priced "custom clothes" has become merely what the name implies: "custom," another word for "habit."

All that you could ask in Suits at

\$24.75

In the matter of materials, for instance, our buying influences touch the richest sources of supply in the world. The finest woolsens, the choicest weaves, the newest and most striking ideas are literally laid at our feet. We have our pick of the best at prices possible only to enormous cash buying.

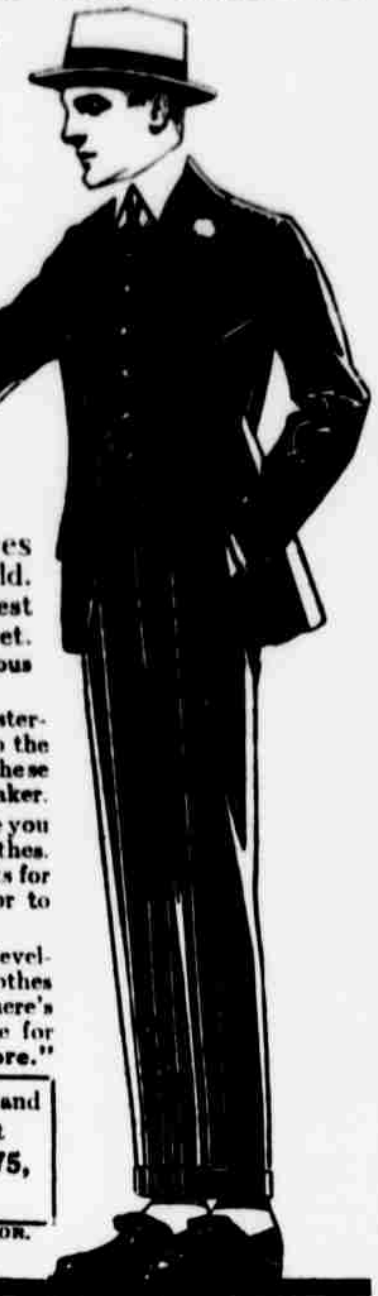

In the matter of style, your Macy clothes are master-designed by men who command salaries which are equal to the total income of many good-sized stores. The creations of these genius tailors are usually "copied" by your average clothes maker.

And, so far as workmanship and fit are concerned, these you must see. These you must compare when you are in the clothes. The lines, the grace, the character, if you please, of our Suits for men and young men at \$24.75 are in every way superior to clothes for which you've been paying considerably more.

If you haven't kept in touch with the remarkable development of the ready-to-wear clothes industry the past few years there's a very happy surprise in store for you. We mean in "this Store."

Other Suits for young men and men who are always young at 14.75, 16.75, 19.75, 29.75, 34.75.
